

**PIMS 3<sup>rd</sup> Annual Microgravity Environment Interpretation Tutorial**  
**NASA Glenn Research Center, Dynacs Building, Room 175**  
**Cleveland, Ohio**

**7 December 1999**

|  |              |
|--|--------------|
| Introduction of Stephen Simons               | D. Francisco |
| Welcome                                      | S. Simons    |
| Acceleration Measurement Program Overview    | D. Francisco |
| 1. Technical Introduction and Orientation    | K. Jules     |
| 2. PIMS Interactions with Experiment Teams   | K. Jules     |
| 3. Acceleration Measurement Systems          | W. Foster    |
| 4. Demonstration of SAMS-FF                  | T. Kacpura   |
| 5. Basics of Signal Processing               | E. Kelly     |
| 6. Analysis Techniques for Quasi-Steady Data | K. McPherson |
| Open Forum Discussion                        |              |

**8 December 1999**

|   |              |
|---|--------------|
| 7. Analysis Techniques for Vibratory Data                             | K. Hrovat    |
| 8. Microgravity Environment of Non-orbital Platforms                  | K. McPherson |
| 9. Highlights of the Microgravity Environment of the Orbiters and Mir | R. Delombard |
| <b>Microgravity Facilities Tour</b>                                   | Staff        |
| 10. Implications for Microgravity Experimenters                       | K. Jules     |
| 11. ISS Acceleration Environment Predictions                          | R. Delombard |
| 12. PIMS International Space Station Operation                        | K. McPherson |
| 13. International Space Station Acceleration Data Flow Demo           | K. McPherson |
| 14. Vibration Isolation Techniques                                    | R. Delombard |
| Open Forum Discussion   |              |

*Social Activity: Dinner in C-town( pay your own)*

**9 December 1999**

|   |              |
|---|--------------|
| 15. Predicting Residual Acceleration Effects on Space Experiments | E. Nelson    |
| 16. Impact of the Microgravity Environment on Experiments         | R. Delombard |
| Open Forum Discussion   |              |

|  |             |
|--|-------------|
| Introduction of Stephen Simons                     | 8:45-8:50   |
| Welcome (by S. Simons)                             | 8:50-9:00   |
| Acceleration Measurement Program Overview          | 9:00-9:10   |
|  |             |
| 1. Technical Introduction and Orientation          | 9:10-10:30  |
| 2. PIMS Interactions with Experiment Teams         | 10:30-10:45 |
|  |             |
| <b><i>BREAK</i></b>                                | 10:45-11:00 |
|  |             |
| 3. Acceleration Measurement Systems                | 11:00-12:00 |
|  |             |
| <b><i>LUNCH</i></b>                                | 12:00-13:00 |
|  |             |
| 4. Demo of Advanced Acceleration Systems (SAMS-FF) | 13:00-13:30 |
| 5. Basics of Signal Processing                     | 13:30-14:30 |
|  |             |
| <b><i>BREAK</i></b>                                | 14:30-14:45 |
| 6. Analysis Techniques for Quasi-Steady Data       | 14:45-15:45 |
| Open Forum Discussion                              | 15:45-16:45 |

**8 December 1999**

|   |             |
|---|-------------|
| 7. Analysis Techniques for Vibratory Data                             | 8:30-9:30   |
| 8. Microgravity Environment of Non-orbital Platforms                  | 9:30-10:00  |
|   |             |
| <b><i>BREAK</i></b>   | 10:00-10:15 |
|   |             |
| 9. Highlights of the Microgravity Environment of the Orbiters and Mir | 10:15-11:00 |
|   |             |
| <b><i>LUNCH</i></b>   | 11:00-12:00 |
|   |             |
| Microgravity Facility Tour (2.2 seconds drop tower, Zero-g), and TSC  | 12:00-14:00 |
| 10. Implications for Microgravity Experimenters                       | 14:00-14:15 |
| 11. ISS Acceleration Environment Predictions                          | 14:15-14:45 |
| 12. PIMS International Space Station Operations                       | 14:45-15:15 |

|   |             |
|---|-------------|
| <b>BREAK</b>  | 15:15-15:30 |
| 13. International Space Station Acceleration Data Flow Demo | 15:30-16:00 |
| 14. Vibration Isolation Techniques                          | 16:00-16:30 |
| Open Forum Discussion                                       | 16:30-17:00 |
| Social Activity: Dinner in Downtown                         | 20:00-      |

## **9 December 1999**

|   |            |
|---|------------|
| 15. Predicting Residual Acceleration Effects on Space Experiments | 8:30-10:00 |
|---|------------|

|              |             |
|--------------|-------------|
| <b>BREAK</b> | 10:00-10:15 |
|--------------|-------------|

|   |             |
|---|-------------|
| 16. Impact of the Microgravity Environment on Experiments | 10:15-11:15 |
| Open Forum Discussion                                     | 11:15-12:00 |
